CS50 - Python

CS50 - Computer Science

University of London

⊙ SKILLS ⊙

HTML & CSS

Git

JavaScript

React

Python

AWS

⊙ HOBBIES ⊙

I find pleasure in creating personal
projects such as portfolios,
blogs, or interactive websites
to experiment with new design
trends and coding techniques.

PROFILE

I am a dedicated Team Leader in the Telecommunications field and a Software Engineer
Graduate with a strong focus on Front-End Development.

With years of experience leading high-performing teams to excellence, I have honed
exceptional leadership and problem-solving skills.

My goal is to transition from Telecommunications to Software Development, as this shift
allows me to leverage my innovative mindset in designing and developing intuitive user
interfaces.

EMPLOYMENT HISTORY

Team Leader at Merchants Making Human Digital, ZAF, Johannesburg, Edura House
June 2022 — Present

- Monitored team performance and performance metrics to identify areas of
  improvement
- Encouraged creativity and innovation to develop new solutions to complex
  problems
- Led team meetings to discuss progress and review any challenges faced
- Analyzed data and evaluated survey feedback to identify areas of improvement

EDUCATION

Software Engineer Certificate, ALX, Johannesburg
January 2023 — June 2024

Successfully completed an intensive software engineering program focused on
Front-End Development and Back-End Development.

COURSES

CS50X - Introduction to Computer Science, Harvard University Online
January 2023 — December 2024

Introduction to Object-Orientated Programming in C++, University of London Online
March 2024

EXPERIENCE

React App Presentation Project
April 2024 — June 2024

I created a React application called Cinema Search. This app allows users to search for
movies using the Open Movie Database (OMDb) API.
